

Brainstorm

Methodology

We used brainstorm approach B from the lectures. We all added our own ideas to the big brainstorm frame on Miro and after we were out of ideas, we each presented our ideas to the team, trying to convince the others on it.

We discussed their validity and on the ideas we didn't kill outright we had a democratic vote, to kill it and put it in the graveyard, or to let it into the hospital for further consideration.

Then we discussed the remaining hospitalized and blessed ideas and came to our final three.

See all parts of our brainstorming below or more detailed on

https://miro.com/app/board/uXjVLVHk59E=

How might we ...

...improve time
efficiency in
decision-
making?

...resolve
dietary
restrictions
in groups?

...make
decision-
making
more fair?

...improve
communication
in big groups?

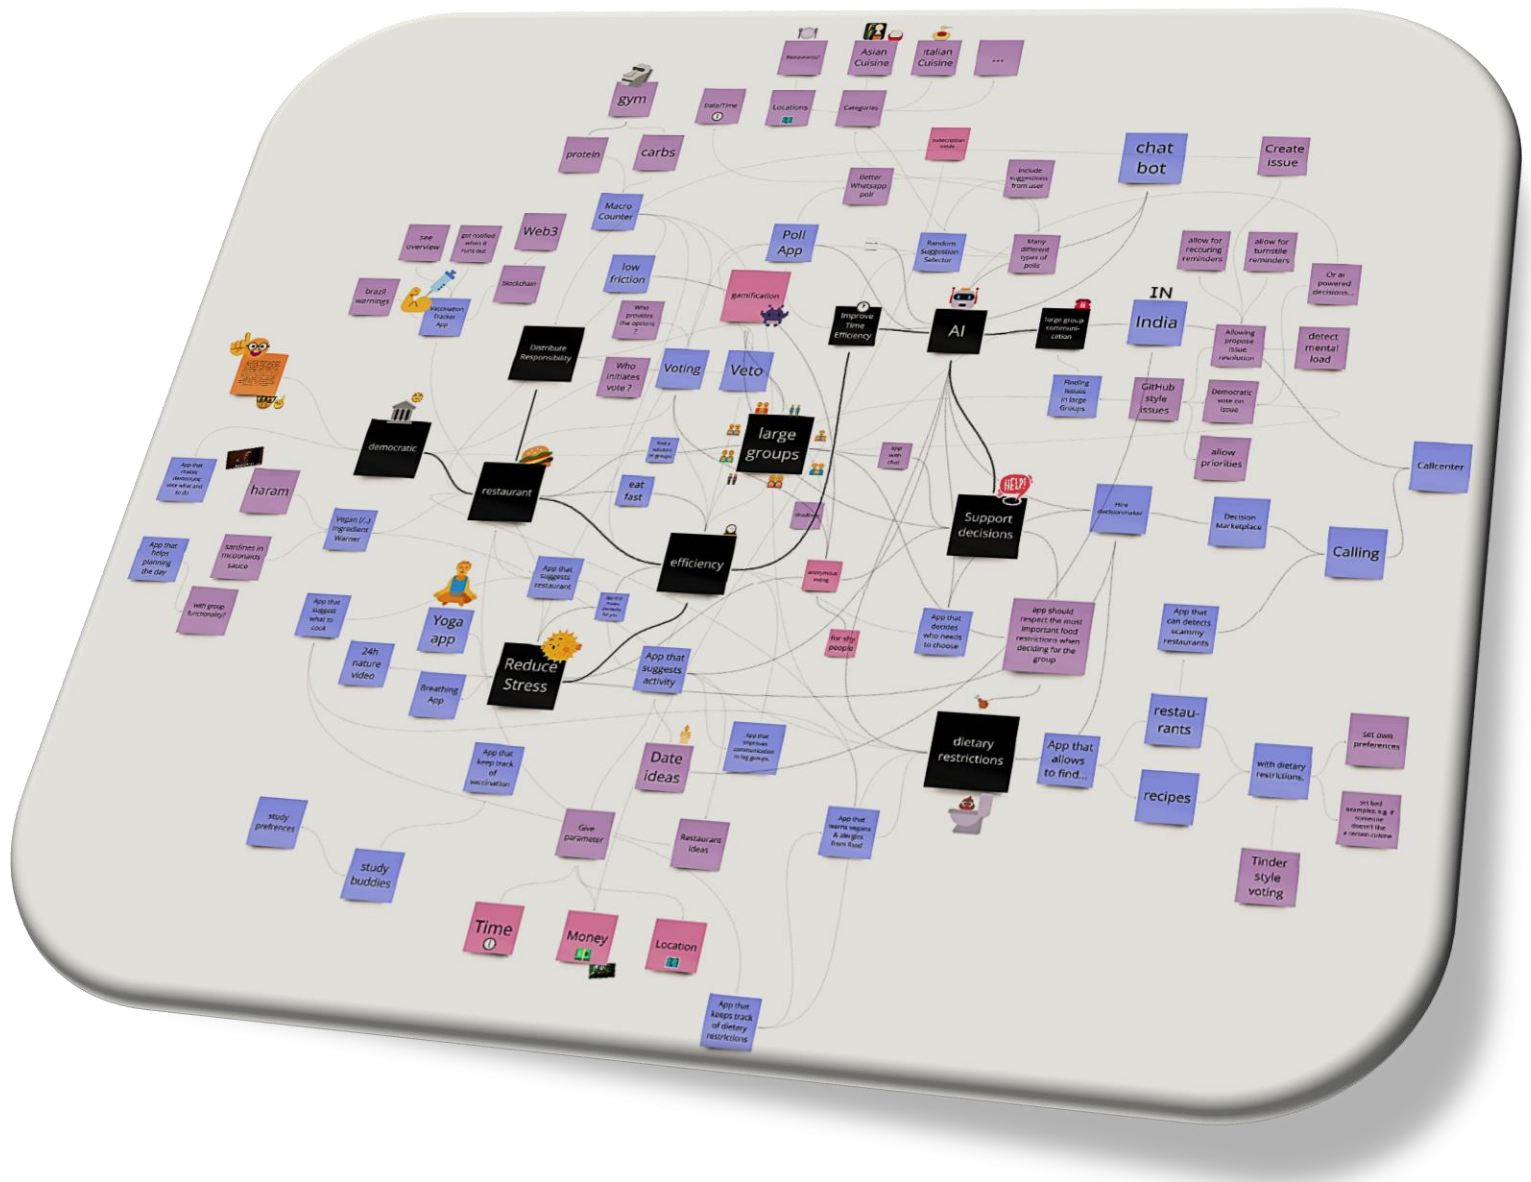

...ensure
that
everyone is
involved?

...help
balance
work and
life?

...reduce
stress in
decision
making?

...decide on
a
restaurant
easier?
